East Coast 12-Meter Price List

RMD Marine builds AMYA EC12 class certified unique one piece hulls, using the new molds. These are **seamless hulls** that are stronger and leak proof.

Hulls are constructed of cloth (no mat) only, single color gel coat (no water lines) in the following colors: **WHITE; BLACK; RED; YELLOW; LIGHT, MEDIUM and DARK BLUE.** Hull and deck colors can be any combination of colors.

The hull, deck and rudder are buffed to a perfect finish.

The deck is a superior design of glass and foam composite with a hatch opening molded in (no hatch cover). The weight of the deck is between 13-15oz before installation and trimming depending on gel coat color (yellow and the darker colors are a little bit heavier because of the pigment). The deck needs no frames but does need a mast compression post.

Clearly written instructions are included for assembling deck to hull.

EC12 Basic Hull Package

HULL One piece, no seam, no leaks.	300.00
(\$17.00 class registration fee and mold leasing charge will be added to all hull orders)
